

 Real People, Real Support For Your Team.

# The *first line of defense* for employees experiencing mental health and/or addiction challenges

The WEconnect app was built to support people dealing with mental and emotional health challenges, as well as substance use concerns. The app can guide your employees toward their specific goals whether it is mental health or addiction-related. However, it also empowers those who are looking to build and maintain healthier habits. Our strengths-based approach to well-being focuses on the individual and their mental, physical, and emotional needs.

# WEconnect Works

We're so excited to partner with you! Together, we're going to reach your wellness goals. Here's what you need to know about the WEconnect smartphone app.

1

WEconnect can be a powerful tool for anyone trying to make healthy lifestyle changes! Our 6+ daily meetings are open to anyone experiencing mental health, quality of life, and/or substance use concerns.

2

Match and connect with a certified Peer Support Specialist to receive 1-on-1 support relating to your mental and emotional health. When you need advice, support, or encouragement, you can always reach out to your Peer.

3

The app is completely anonymous. It simply offers customizable tools to help you stay engaged and on track with your unique goals. We will never share your information with employers.
